CHICAGO.

COLUMBIAN ENG CO CHICAGO.

(1891)

PREFACE.

Your inspection is respectfully invited to the pages of this new catalogue which will be found to present a line of hardware specialties and novelties I am manufacturing.

The goods will be found to embrace all the latest improvements, have new designs and be first-class in every respect. The line of Curling Irons is believed to be the handsomest and most complete manufactured in the United States.

Any orders you may favor me with will receive prompt and careful attention. Please preserve catalogue for future reference.

Yours respectfully,

J. H. BEVINGTON.

A brief description of a new and wonderful process of rolling and forming Metals, originated from the manufacturer known as Bevington Self-Heating Curling Iron, and in recognition of my invention I have been awarded a gold medal from the Centennial Exposition, of Philadelphia, the only medal of the kind in twenty-five years. Will be found interesting for perusal on pages 30 and 31.

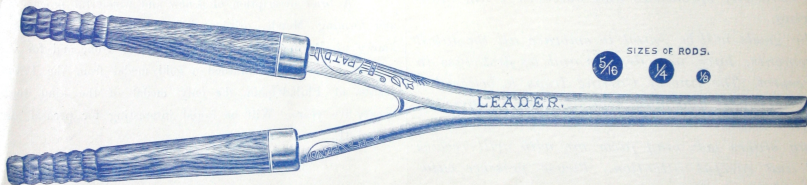

"The Leader."

POLISHED WOOD HANDLE.

POLISHED NICKLE RODS.

(EXACT SIZE.)

This Handsome "Nut Pick," highly Finished in Nickel.

Per Gross, \$12 00

STOP THIEF.

THE TOURIST'S UMBRELLA.

~ A NEW WRINKLE. ~

Combined Umbrella, Self-Locking Device and Handy Light.

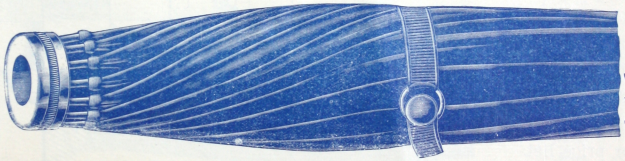

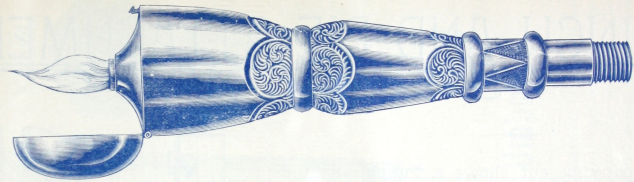

Tourist's Umbrella is attractively gotten up for novelty dealers and general trade. It presents an attractive article with a highly ornamental stick. The handle is detachable, and on being removed locks the umbrella. In the handle there is a novel instantaneous device. The umbrella is adapted for general use, and makes a very convenient adjunct for traveling purposes. When the owner of a Umbrella desires to leave a theatre or railway car for a short while, by simply detaching the handle, the umbrella may be safely left behind. The handle is not larger than a tobacco pouch, and can readily be carried in the pocket. When a light is desired in a hallway, closet, or a cigar, etc., the instantaneous light device admirably fills the want. (See cut page 17.)

Sold by furnishing stores and novelty dealers. See cut on next page. Manufactured by

CHALLENGE STEAM COOKER,

A Household Necessity, Cheap, Simple, Practical and Durable.

(Patent Pending.)

A few facts in regard to the merits of the Cooker. They carry off all steam and odor from cooking, keeping the rooms pure, and walls dry, they have a drum with raised cover which encloses all the different vessels which contain the food cooking, thereby retaining the steam which may be condensed and returns into the vessel holding water below and not passing through the food being cooked. By this method all the steam is utilized and the delicate flavors of Meats, Vegetables, etc., is retained.

THE CHALLENGE STEAM COOKER

is far ahead of anything of the kind ever offered to the public. The various vessels make it complete; one, two, three or four can be used at the same time, and will do the work of as many common iron kettles. It costs about one-half the price of other Cookers. Fill the base about half full of water and that will do your entire cooking, and will boil at 212° , you cannot heat it hotter and all the condensation passes back into the lower base, thereby requiring no further attention.

ALL VEGETABLES MUCH IMPROVED. POTATOES MORE MEALY.

 Warrented to do all Claimed or Money Refunded.
